

# STEAM BOILER

ART. NO. 550000

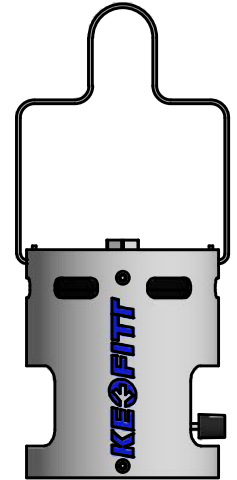

## GENERAL

 The KEOFITT STEAM BOILER is a portable steam source that offers the ability to steam your KEOFITT sampling valve where steam is otherwise unavailable. All you need is water and the appropriate gas.

 To be used for all steam sterilizable sampling valves.

 Gas is NOT included!

 CAUTION! Open flame! It is recommended to use heat protective gloves during the sterilizing process as both Steam Boiler, fittings and sampling valve become hot during the process.

## FEATURES

 Connection: W9 hose piece in-/outlet

 PTFE TUBING w/QUICK COUPLING 0.5 m (#550002) included.

## TECHNICAL DATA

### Material (process contact)

### Material (without process contact)

- |                                 |  |
|---------------------------------|--|
