

ACTUATOR PRODUCTS - PED EXEMPTION

The Technical Authority & Manufacturer,

**Flowserve Flow Control GB,
Burrell Road, Haywards Heath
West Sussex, RH16 1TL, United Kingdom**

Declares that the Pressure Equipment Directive (PED) 2014/68/EU is not applicable to the Flowserve Norbro and Automax Supernova actuator products. These products are exempt under Article 1, Paragraph 2, point (j)(ii);

“This Directive shall not apply to:

Equipment comprising casings or machinery where the dimensioning, choice of material and manufacturing rules are based primarily on requirements for sufficient strength, rigidity and stability to meet the static and dynamic operational effects or other operational characteristics and for which pressure is not a significant design factor; such equipment may include:

- *Engines including turbines and internal combustion engines*
- *Steam engines, gas/steam turbines, turbo-generators, compressors, pumps and **actuating devices**”*
